Ventilation hatches

TBGlazing hatches can be opened in several positions.

Hatches dimensions in mm:

564*564

600*650

Technical information:

All ventilation hatches are white powder coated (RAL 9010). The aluminium inner rim gives a perfect finish up to a roofthickness of 50 mm.

The ventilation hatches have a grey glass panel of ECE R43 approved 5 mm toughened safety glass.

The ventilation hatches are suitable for installment on a flat surface.

All sizes are cut out sizes, corner radius = 100.
